

Omnia

There's one for everyone...

Omnia is a compact professional level water dispensing system that allows you to drink **hygiene-assured** refreshing water with confidence. **Chilled** still and **sparkling** water available night and day. **Great tasting** too as it is filtered on dispense.

Ideal for the office, ZERICA's exclusive **Silver Turbo Clean** high pressure refrigeration system ensures **maximum hygiene levels**. Other exclusive technologies ensure near-silent operation so as not to disturb your concentration when you're hard at work.

Omnia is an **eco-friendly** solution that helps reduce your carbon footprint, eliminating the need for plastic bottles.

Discover just how easy it is **to take care of the environment whilst saving time and money**: say goodbye having to manage the purchasing, transporting and storage of heavy cases of water and having to manage the plastic recycling. Eliminate the need to buy the plastic bottles in the first place.

Choose **Omnia** for your office and join ZERICA in promoting positive environmental messages as well as **good hydration** practices.

Expand the concept and accessorise **Omnia** with **Friska** bottles to help the environment every day and work to a world without plastic.

Enabling technologies & key benefits

Discover what we have in store for you...

Silver Turbo Clean

ZERICA's exclusive high pressure sealed refrigeration system with bacteriostatic silver welding. Upon dispense, a water vortex is generated internally preventing biofilm, residue, and bacteria proliferation so zero maintenance needs & no top-ups!

Low Noise

Uses fans with magnetic suspension for near-silent operation. We won't disturb your moment of calm or interrupt your concentration at home or in the office whether studying or working hard.

Easy Access

Easy access compartment for simple filter cartridge & CO₂ canister replacement and straightforward inspection & maintenance.

ZERICA: building an evaporator
